

**Kristy & Kyle**

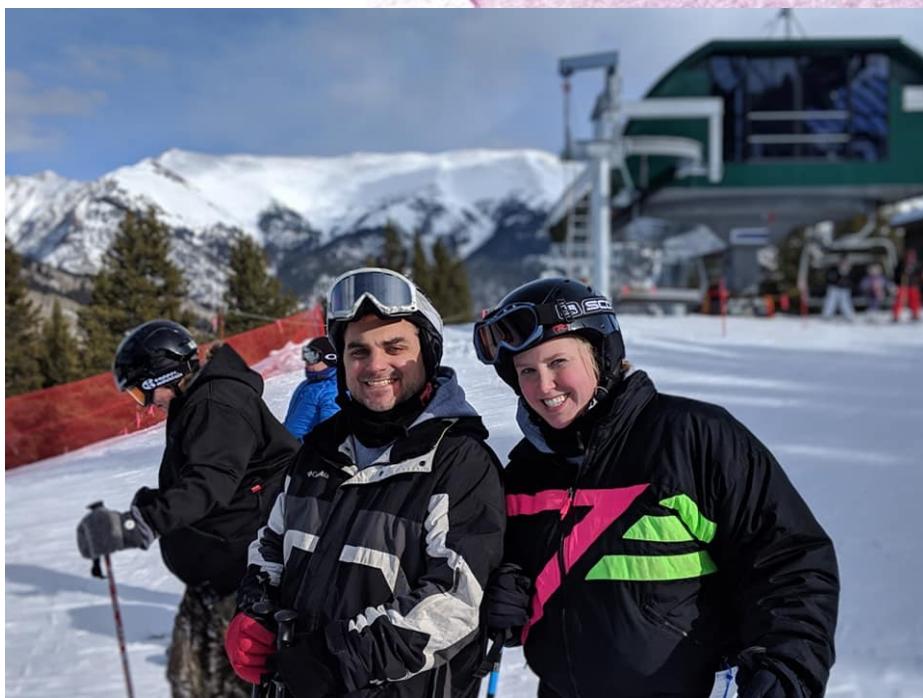

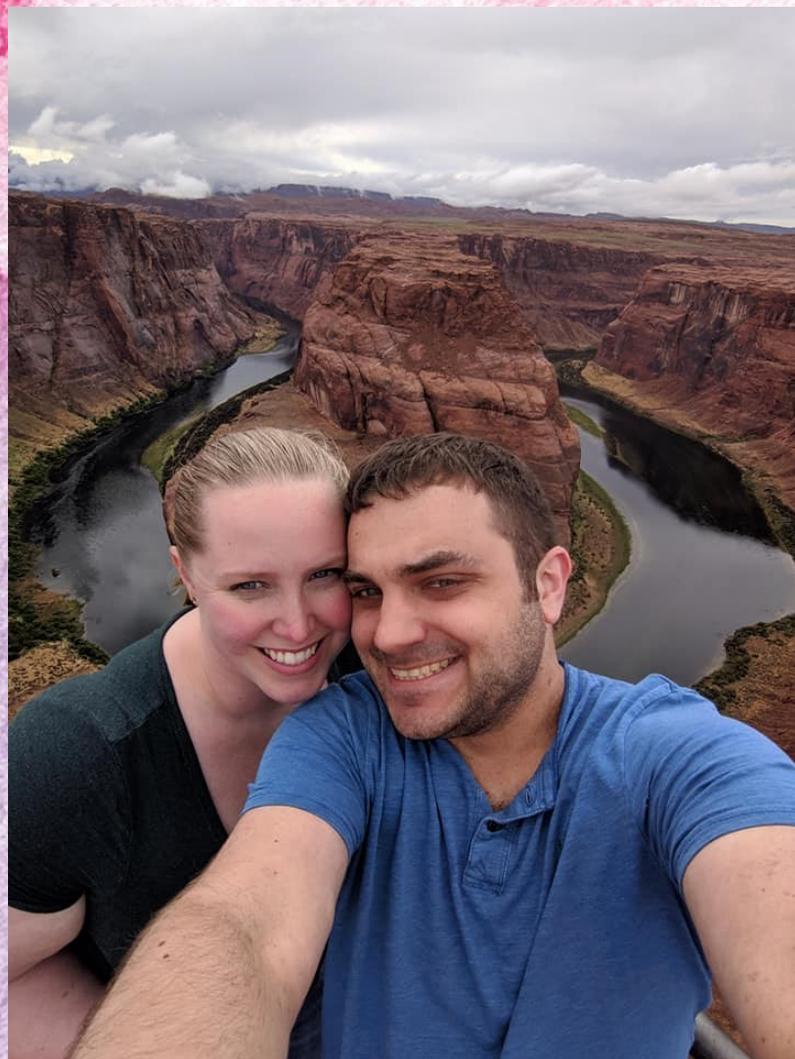

# Dear Birth Parent.

Thank you for your time and consideration as potential parents for your child. We cannot begin to imagine everything you are going through. Our journey to parenthood hasn't been easy; however, through it all we have come out stronger and more assured than ever that adoption is our destined path. We have nothing but love to give and cannot wait to share it with someone. We hope you will consider us and regardless of your choice, we wish the best for you and your child.

sincerely  
Kristy & Kyle

## Our Story

Through the years, we have shared our love for travel, food, puzzles and adventures and have grown to love each other more every day. Some of our favorite destinations have been our Caribbean Cruise where we were married and had opportunity to try authentic food from a small Mayan village, New Orleans during Mardi Gras watching some of the most amazing floats we have ever seen, and a road trip from Phoenix to Las Vegas. While traveling to Las Vegas, we did an off road jeep tour in Sedona and saw the Grand Canyon. One day we hope to complete our goal of traveling and doing an activity in each of the 50 States. We are both a little nerdy and enjoy doing room escapes, geocaching, going to museums, and visiting aquariums and zoos. All of these activities are ones we hope to share with a child one day soon. We challenge each other every day to be better, and although we have struggled with infertility, we have bonded closer together and our relationship is stronger than ever.

## About Kristy

Kristy grew up on the west side of Michigan. When she was two months old, her mom opened an in-home childcare program. This gave her lots of time to spend with her mom and sister. Some of her fondest childhood memories have been the activities her mom planned for her and the other kids, like going swimming, touring a submarine and visiting Cereal City. From a very early age she was drawn to the water and even worked as a lifeguard and was part of several swim and water polo teams. She is very excited to share her love of swimming with a child.

Kristy went to college over by Detroit, where she earned a bachelor's degree in Histology and then a second bachelor's degree in Pathology. She is currently the manager of the Pathology Department and the Pathologists' Assistant at a local hospital.

*“ We have nothing but love to give, and we cannot wait to share it with a child. ”*

## About Kyle

Kyle was born south of Detroit. He picked up piano at a young age and had the opportunity to travel Europe during high school with a choir. He took part in several musicals, his favorite being “Thoroughly Modern Millie”. After high school, he attended college on the west side of the state, where he earned a master's degree in Accounting and became a Certified Public Accountant. He currently works in Finance at a local hospital. He loves his job as no two days are ever the same.

In his spare time, Kyle enjoys spending time with family and friends, traveling, and playing board games and video games. Some of his favorite games are Cosmic Encounter, Ticket to Ride, Overwatch and Red Dead Redemption.

## About our Family

We each have small immediate families—Kyle has one younger brother and Kristy has one younger sister and a brother-in-law, but we have large extended families through our aunts, uncles and cousins. Even though most of our family lives hours away, we try to visit often throughout the year.

Our family would not be complete without our pets. Paka, our first cat, has a friendly but independent personality. She is usually hiding in the basement or sitting on top of furniture watching over us and the house. The Littlest Kitten (she is not so little anymore) came next, we like to think she found us. She had been wandering around our apartment building, we took her in, and she became part of our family. She is very friendly and inquisitive and is always looking to cuddle and check out what we are doing. Finally, we have our golden retriever, Sampson. He is a sweet boy, who loves to chase squirrels and run in our backyard.

## About our Community

We live in a medium-sized city, which is not too far from Ann Arbor and Lansing. We have many beautiful parks, bike trails, activities and events for young ones throughout the year. We have friendly neighbors who look out for each other and try to make everyone feel like family. We enjoy geocaching around our town and have even created a few for others to find. We love our small family-friendly neighborhood.
