

## HANDS ACROSS THE WATER WAITING FAMILY

# Megan and Caitlin

Thank you so much for considering us to be a part of your adoption story. We can only imagine the difficulty of finding the "perfect" family for your child and we appreciate you learning more about us. Megan is uniquely connected to adoption as her mother is not only a birth mother, but an adoptive mother as well. Our family is fortunate enough to have wonderful close relationships with Megan's birth brother and her adoptive sister as well as their children and spouses. Adoption has been the blessing that keeps on giving in our homes. We can imagine nothing better for a child than having two families who love them so much and want the best for them.

We live in a small town right on the shore of Lake Michigan. Our home is just 5 minutes from Megan's parents as well as her sister, brother in law, and 3 of our nieces and nephews. We often spend our weekends hanging out with them, attending the kids sporting events, and having dog play dates. We also love traveling to see Cait's family in Virginia and California and face time as often as possible with their kids.

After enjoying our twenties living in exciting places (Nashville, Vermont, San Francisco, & Australia) we knew that nowhere was as appealing to start a family as Megan's sweet home town. We have been preparing and hoping for this opportunity to love a little one for many years and hope that you see that our lives are overflowing with love and support.

We are so excited for this journey and would love the opportunity to talk to you!

### About Megan

- **Age:** 36 years old
